Main uses	 Feed and drive in printing machines	 Feed and drive in the conveyors and transfer equipment	 Feed and drive in textile machines
	 Feed and drive in construction machines	 Feed and drive of home appliances	 Drive of agricultural machines
	 Feed and drive in packaging machines	 Special advantage for oil field use	

In addition to general chains, we also manufacture numerous chains developed for specific applications such as bicycle chains and motorcycle chains.

Some specialty chains can be engaged with standard sprockets. Wear resistant properties of general chains are included in the specifications of each type of specialty chains.

Specialty chains are classified as follows:

- **Bicycle Chain**
- **Agricultural Chain**
- **BS type Roller Chain (British Standard Roller Chain)**
- **Leaf Chain**
- **Oil Field RIG-REDi Chain**
